

REMARKS

The Examiner states that Group I claims encompass species depicted in Figures 1 and 3-5. Applicants submit that the embodiment depicted in Figure 5 is representative of the invention in non-elected Group II claims 66-68, drawn to a device for ablating tissue having a transducer, controller and housing with wheels. The species depicted in Figure 1 is readable on elected claims 1-6, 8-32, 34-37, 43-44, 50-51, and 60-62. Figure 1 is readable partially on elected claim 7. Applicants do not wish to amend the claims at this time.

Respectfully submitted,
